

PUBLICATION LIST DR. PETER MATTHIAS MUNDINGER

Publications:

Mundinger
High-resolution MRT of the tendons of the ankle
My medibook, learning and medical science, 2013

Mundinger/Fischer:
High-resolution MRT of the ankle ligaments. Anatomy and typical findings.
Foot & ankle, Volume 10, Juli 2010

Mundinger/Lensch:
Modern High Resolution MRI (Poster)
International Congress of Radiology
Shanghai, China 2010

Mundinger et al.
Optic nerve sheath meningioma and optic nerve glioma. Klin Neuroradiologie / (4):S. 216-222 (1997)

Fischer/Mundinger:
MRT-diagnostic of ankle joint tendons
Foot & ankle joint, Volume 10, Juli 2010

Book chapter:

Magnetic resonance tomography. S. 196-217. Boeck, Mundinger, Luttke
In: muscle injury at sport. Müller-Wohlfahrt, Üblacker, Hänsel (Hrsg)
Springer Verlag, 1. Edition 2010

Lectures (incomplete compendium of the last 10 years):

1. Imaging after spine surgery-which technique is helpful?
Annual meeting of the association orthopedic and trauma surgeons.
Berlin, 24.10.2013
2. MRT-imaging of damages and trauma of tendon and ligaments of the foot.
Operation course tendon surgery.
Augsburg, 5.07.2013
3. Microscopic coil: high resolution MRT of the foot. Anatomy and typical findings
19. Annual meeting of german association of foot surgery.
Stuttgart, 8.-9.03. 2013

4. Pitfalls. Do radiologists see more?
International Forum spine surgery
Schruns, Austria 23.-26.2013
5. Imaging of the spine
Orthopedic & Trauma surgery symposium. The spine.
Bamberg, 6.10.2012
6. MRT of the wrist
8. Operation course arthroscopy of the wrist
Augsburg, 23.11.2012
7. High-resolution MRT of the tendon and ligaments of the foot
German Association Foot surgery: operation course tendon surgery
Augsburg, 06.07.2012
8. Cervical and lumbar myelography
International Forum spine surgery
Schruns, Austria 19.-21.01.2012
9. Spinal imaging: when does what make sense?
AOSpine basic course
Augsburg, 11.11.2011
10. New paths in orthopedic imaging
3. Germany, Austria and Switzerland 3 Tesla usermeeting
Berlin, 1./2. October 2010
11. Myelopathy. Diagnosis only by the neurologists?
Forum spine surgery
Arosa, Switzerland 01.2011
12. Morphological and dynamic MR-imaging of the spine
Forum spine
Arosa, Switzerland 20.01.2010
13. High-resolution MRI of the foot and ankle- experience of a reference center for high-resolution MRI-imaging
St. Gallen, Switzerland 28.10.2009
14. High-resolution MRI of the ankle and foot.
Radiological Colloquium Osnabrück
Osnabrück, 23.06.2009
15. High-resolution MRI-imaging of the knee and ankle
12. Course of analysis and correction of leg deformity
Schloss Reisensburg, 25.-29.5.2009
16. Modern MRI of the wrist

AE-course hand surgery
Oberstdorf, 25.09.2009

17. MRI-imaging of the injured shoulder
8. Orthopedic & Trauma surgery symposium. The shoulder
Bamberg, 14.11.2009

18. Which contribution makes the modern MRT-imaging to the diagnosis of fractures and soft tissue damages of the hand?
Current trends in managing of fractures and malposition of the wrist and hand.
Augsburg, 11.02.2009

19. Imaging of pathological vertebral fractures
Forum spine
Arosa, Switzerland 01.2009

20. CT and MRI
Fractures of the spine
2. Basic courses of the DWG (German Spine Association), 11./12.09.2009

21. Modern MRI-imaging of the foot tendon. Anatomy and typical findings
Radiological Colloquium
Augsburg, 27.05.2009

22. Musculoskeletal high-resolution magnetic resonance tomography
Philips User meeting
Zürich, Switzerland 10/2008

23. MRI-imaging of the cervical spine
1. Basic course of DWG. Diagnostic, therapy and access paths of cervical spine diseases
Frankfurt, 19.09.-21.09.2008

24. High-resolution MRI of the musculoskeletal system
BVOU training
Nürnberg, 22.11.2008

25. Indications for radiological imaging. When makes what sense?
4. Bavarian Pain meeting, 5. Enzensberger Pain meeting
Enzensberg, 06./07.09.2008
MRI diagnostic.

26. MRI of the knee joint
6. Orthopedic & Trauma surgery symposium
Early forms of osteoarthritis of the knee – current therapy options
Bamberg, 13.10.2007

27. What contribution can modern MRI-imaging make to fractures and soft tissue damages of the hand?
Current trends in treatment of fractures and defective position of wrist and hand.
Augsburg, 05/2007

28. MRI of spine
Basic course of the section 6 of DGOOC
Frankfurt, 28.09.2007
29. MRI of damages and trauma of tendons and ligaments of the foot.
D.A.F. (German association of foot surgery) operation course tendon surgery
Augsburg, 05.-06.05.2007
30. Radiological diagnostic of the spine
Forum spine surgery
Arosa, Switzerland 25.01.-27.01.2007
31. MRI-imaging of the knee
Course for analysis and correction of leg deformity
Schloss Reisenburg, 21.05.2007
32. Modern MRI-imaging of the hand
Arthroscopy course wrist
Augsburg, 2007
33. Options and limitation of MRI-imaging of the elbow
Hand @ six,
Augsburg, 22.02.2006
34. MRI-imaging of the ankle with cartilage and ligament lesions. What's possible?
11. Annual meeting of D.A.F. (German association of foot surgery)
Augsburg, 15.04.2005
35. Modern MRI-imaging of the hand
Arthroscopy workshop wrist
Augsburg, 11.11.2005
36. MRI-findings of diseases of the foot. Anatomy and typical findings.
D.A.F. Foot course (German association of foot surgery)
Augsburg, 02/2005
37. Modern MRI-imaging of the tendons and ligaments of the foot . Anatomy and typical findings.
D.A.F. Operation courses tendon surgery
Augsburg, 11/2004
38. Microscopic coil application: an improvement of the MRI-imaging of the hand
DGH Stuttgart, 25.10.2003
